Terms

VetOmics Research Agreement

1. Scope and Purpose

This Research Agreement ("Agreement") governs the provision of VetOmics Research Services ("Services") by VetOmics ("VetOmics," "We," "Us," or "Our") to the collaborating researcher, institution or entity ("Researcher," "You," or "Your"). These Terms and Conditions apply to all Research Services provided by VetOmics to any researcher, institution, or entity engaging VetOmics for genomic analysis and related services.

By submitting samples to VetOmics, You acknowledge that You have read, understood, and agree to the terms outlined in this Agreement.

2. Research Services

VetOmics will provide research services, including whole exome sequencing, data analysis, interpretation and related activities.

The deliverable of these services will be a Summary Report include a summary of the genomic findings.

The resulting data ("Research Results") are intended for scientific research purposes only and must not be used for clinical diagnosis, patient treatment, or medical decision-making.

3. Researcher's Responsibilities

The Researcher is responsible for ensuring proper sample collection, labeling, and shipment according to VetOmics' guidelines, obtaining all necessary approvals and securing informed consent as required by law and ethical guidelines.

The Researcher may use the Research Results for academic and non-commercial research but may not distribute, share, or use them for commercial purposes without prior written consent from VetOmics. The Researcher shall not share Research Results with third parties

outside their institution without VetOmics' written approval.

4. Confidentiality and Data Protection

Both VetOmics and the Researcher shall maintain the confidentiality of any non-public, proprietary, or sensitive information disclosed during the collaboration. This includes, but is not limited to, sample data, genomic findings, methodologies, and unpublished research results. This confidentiality obligation shall remain in effect beyond the termination of this Agreement. VetOmics shall be appropriately acknowledged in all publications, conference presentations, and public disclosures.

6. Data Use and Ownership

By engaging in this research collaboration, You consent to the collection, processing, and storage of genomic and related clinical data in accordance with VetOmics' [Privacy Policy], including the right to use anonymized data for research and business purposes. VetOmics retains ownership of all data submitted or generated through the Services, and reserves the right to use data for research, development, quality improvement, and commercial purposes.

7. Intellectual Property Rights

Researcher acknowledges and agrees that VetOmics shall solely own and have exclusive worldwide right, title and interest in and to the technology, know-how, trade secrets, tools, instruments, software, processes, workflows, methods, information, and techniques used in the provided services and research.

8. Limitation of Liability

VetOmics provides the Services "as is," without warranties, express or implied, regarding accuracy, completeness, or fitness for a particular purpose. To the extent permitted by law, VetOmics shall not be liable for any indirect, incidental, or consequential damages, including loss of data, arising from the use of the Research Results.

9. Payment and Service Modifications

Payment for the service will be invoiced and must be paid in full prior to the release of data. Any modifications to the scope of services, including but not limited to the quantity of samples, specifications, and scheduling, will only be binding upon written approval from both parties. Such modifications may result in additional or increased charges.
